“ Carol went to LPHS with us, her and James were our friends. Even though she had moved and I did not know her in school, she had came to some reunions and I met her there. Roy and I loved to visit with them, they were wonderful people. We were looking forward to another visit soon when the weather got better. She was my friend and I loved them and they were just great... so sweet and loving. We will miss them so much. I plan to write a letter to her kids, as soon as I am able to do so, now it is just grief. I am glad they did not suffer and I know where they are and hopefully will see them again in better conditions here in a Paradise Earth..

“ My condolences go out to the family. I went to school with Carol in La Porte. The last time I saw her was in 1958. We reconnected through our classmate group and talked on the phone several times before she moved to Arkansas. She was always so happy looking in our school days and friendly to everyone. I will always remember her as one of the best classmates I had.

“ Dear Family,

I loved Carol and James so much! Carol always had a smile on her face and was always so happy. You never heard her say a negative word about anyone. She was the best woman I have ever known in my life.

I know you are going through so much right now, but I do hope it is comforting to you and the family to know that James and Carol were LOVED by everyone who knew them.

They were with our family when my grandfather found out he had cancer, they were always coming up to visit us and my grandfather enjoyed visiting with James. They were there for us when he passed and they meant the world to me and my family.

I can't believe they are gone, but they will NEVER be forgotten and they are in a much better place.

*My heart goes out to you and your family,
Shelia and Zoe Napier*
