“ My condolences to the family. I knew Geneva for many years. She has watched my kids grow up. My oldest son would always wait until the last minute to tell me he needed certain clothes for a school function, so Geneva's shop was always first choice, as she had a good variety. I would stop in and she'd let me take several and then just return what I didn't want and pay for the items upon my return. Sometimes I would just stop in to chat and play with Neeman. I will miss her. She helped my dad receive emergency assistance one time when he had a medial condition (Joe Wallace). I will forever thank her for that. I will miss her!!

“ My heart goes out to all Geneva's family. I know their hearts must be broken for she was a remarkable woman and shall be greatly missed. I had nothing but admiration and was in awe of her and the fullness of her life. Where did she get all that energy at her age. I shall miss her chatty visits at the store and her great spirit as well. I will remember her always.
