“ I will never forget the tender, gentle care she gave my uncle as he was dying. She treated him with respect, not as someone whose life on this earth would soon be over. After she gave his medications, she would pat his hand and forehead. I will never forget. Never.

“ Grandma Janet is the reason I went into nursing and became a medic! I'll always remember the picture of her in her white uniform and nurses hat! The snake in the living room, her fried fish, her loving smile and infectious laugh!!! She taught me that the most important things in life was Family, Love & Laughter, morals & integrity and your word is everything. Family is all we have at the end of the day and that's what I'll hold on to until my last one here on Earth. She raised us with love.
