Was my grandmother no matter how I got into a situation weather I was right or I was wrong she was always there for me a lot of times before I even knew that she knew she'd show up to help me to comfort me which ever it may been that I need very few people in life get to have the loving and understanding that I have had the pleasure to known and I would like for it to be heard that I think she would have liked to be remembered by her real name not the name she was forced to take when for good reasons she had to hide and not be found
