“ Mr. Roach was the Gifted and Talented teach that allowed me to create my own learning program which has enabled me to serve thousands of people in my career. I'm often the guy that has to learn something nobody else is willing to and then write the training program to make it easy for others to learn. That all started in middle school Gifted and Talented with Tandy / Radio Shack / Texas Instruments systems. It started with Mr. The roach is allowing two of us to work through every single "Future Problem Solving", Case Study he had. It started with the "Odyssey of the Mind" competition. The good kids followed the lesson plan and then two of us were allowed to go off the script and learn at our pace. I am thankful for Mr. Lonnie Roach and I miss his impact on children in my home town.

“ My prayers and sympathy go out to all of Lonnie's family. I remember him well from when we were students together at Elkins High School. I spent some fun times at his house because I was friends with his little sister, Kathy. May special memories help ease the pain of loss.

“ I truly enjoyed working with Lonnie at Middle School. Know that you are in my prayers. A memory that has stuck with me through the years, he gave me my first paddling (in 7th grade) for passing notes in class to my best friend. He was a great teacher!!

“ When I had Mr Roach as a teacher ,he was a very young man himself.He would challenge and interact with all students,and he truly taught. If a student thought of themselves as a talented singer, he would take time out of class to allow you to sing your song in front of the class, he insisted usually. Mr Roach was related to a family Killed in The Mountain Meadows Massacre of 1857, and he was a loyal supporter of our Massacre Foundation. He was a Great Man and will be missed, Godspeed Mr Roach !

“ I have known Lonnie for years and years. We taught together for many of those years. He was a compassionate, intelligent and sincere person and teacher. I personally know many students who benefited from being in Lonnie's classes. The man cared about his students! I don't think Lonnie knew how to be cruel. Objective, but never cruel. I also know how strong Lonnie's faith was. His story is just beginning!

“ Megan and Cameron, as you know, I worked with Lonnie for many years. I knew him to be so very intelligent as well as compassionate. He loved teaching and interacting with his colleagues. Until his health declined, he called to discuss everything education related. I missed those calls. Please take comfort in knowing that his students and colleagues alike valued knowing him and have the utmost sympathy for you kids.

“ I hadn't seen Mr roach for 40 years. When I had him in 9th grade he made us put together our family tree. I have used that family tree many times since then. Thoughts go out to the family.
