“ What can you say? What can you write? Uncle Moss or as people know him now as Tommy. This is a man that during his life has experienced the world in so many ways and left his mark on so many people. His mark was left of me!!! I can think back as a little girl and he was there and then gone in flash, on to a new adventure. I can remember a period in time as a little girl that he was grounded and rooted in one spot for a few years. During this time, I was a princess and a light in his eyes. Which I know I always was and still am even now. My uncle Moss never had children of his own, but he always made me feel like I was his. I still have a doll he gave me over 35 years ago and it may be packed up and in the closet but never forgotten just like he will never be forgotten. All my love from your Tambo!!!!

“ I love my brother with all my heart. He was a wonderful person and would do anything he could for anyone he met. He overcome much hardships in his life but he tried to not let that consume his passion to care for his fellow man. He was faithful to others and to his Lord. He sacrificed what little he had to help others that needed it more than he felt he did. He was a hard worker even when he was not able to do alot, he still pushed to do what he could. There is a big lost to his family and freinds at this time that others will never know. All his pain and suffering are now gone and I will one day join him with others that passed on before him who loved him as much as me. Rest in peace my freind as well as my brother. I will never forget you. Love your baby sister, Carrie Thomas Long Mozingo
